Moab, Utah 84532

Dear Mr. Shumway:

Re: Map Information, Factory Butte Shale Operations, S/055/006, Wayne County, Utah

The Division will need some more information concerning the Factory Butte site prior to approval of your request for a non-commercial use permit. The coal permitting staff will need more specific information concerning the location, boundaries, and size of your proposed disturbance.

Please find attached, copies of maps you have previously sent to us. Please specify on Exhibit A the scale (for example 1"=200") or size of the area you will be mining and specific boundaries of the project. Also indicate to us whether this will be for life of the project or annual disturbance. Please specify on Exhibit B, the approximate location of your project. I believe what you have indicated to us on this map is the old coal pit, which encompasses about 20 acres or more of disturbance. A small dot where you will be working will suffice.

Thank you for your assistance and patience.

Sincerely,

Holland Shepherd
Senior Reclamation Specialist
